Additional Notes: Athletes who fail the screening process will be referred back to their primary care physician for additional evaluation and clearance. Therefore any athlete with a chronic health problem (congenital heart disease, diabetes) or an acute injury needing casting or surgery will not be cleared. Additionally the doctors volunteering their time to help with our screenings are not able to complete medical forms for non-school related camps. Your child is best served by seeing their primary care physician for a more comprehensive physical examination.

A parent/guardian must sign the physical form in order for the student-athlete to receive a physical.
